

## **How to Save Money without Thinking About It**

When it comes to saving money, sometimes the hardest part is remembering to do it. That's where pre-authorized contributions come in. By setting up automatic transfers from your checking account to your savings account, you can save money without even thinking about it.

At Stoughton CU, we believe that saving money should be easy and stressfree. That's why we offer pre-authorized contributions as a simple and effective way to build your savings. Here's how it works:

## Step 1: Choose the amount you want to save

Decide how much money you want to save each month and choose a date for the transfer to occur.

## Step 2: Set up the transfer

Log in to your online banking account and set up a transfer from your checking account to your savings account on the selected date. You can choose to make the transfers weekly, bi-weekly, or monthly, depending on your preference.

## Step 3: Watch your savings grow

Once the transfer is set up, you can sit back and relax while your savings grow. Over time, those small contributions will add up and help you reach your financial goals.

At Stoughton CU, we're committed to helping our members achieve their financial goals. If you're interested in setting up pre-authorized contributions to your savings account, we're here to help. Contact us today to learn more.
